At a called meeting held on Sunday, November 13, 2011, the congregation voted overwhelmingly to approve the course of action set forth below:

1. The Church's architect is authorized to proceed with the preparation of the construction bid documents for the entire project.
2. Sanctuary and choir loft renovations are to begin as soon as possible.
3. The Session is authorized to secure the financing necessary to fund the cost of the entire project; however, no actual debt will be incurred until such time as approved by the congregation.
4. No additional construction or renovation is to begin until such time as the Congregation approves taking such action.

### **What's Next**

Work is already underway on item #1. We hope to have bids on the Sanctuary HVAC in hand no later than the first week in December. Our goal is to begin renovation of the Sanctuary as soon as possible after January 1, 2012.
