Session Motion

On September 20, 2011, a Joint Meeting of the Deacons and Elders (including the 2010 class of Elders) was held to review and discuss the various options and cost estimates of our revised building plans. After an in depth discussion of the components and attendant estimated costs, it was the consensus of the church officers present that the Session endorse and present for congregational approval a construction and renovation plan which addresses Sanctuary upgrades (including a renovated choir loft), a new Children's Wing, a scaled down Welcome Center and a two story walkway connector, as well as painting, demolition and other construction contingencies.

After further review of the revised plan, the Session now recommends that the project as outlined below (with approx. costs), be submitted to the congregation for approval. If needed, a future capital campaign will be conducted in order to retire any remaining balance of the construction loan as quickly as possible.
